Washing your hands is one of the most effective ways to prevent the spread of germs. Here are the 5 simple steps for effective handwashing:

- 1 Wet your hands first, then apply hand soap.
- 2 Briskly rub hands together for 20 seconds.
- 3 Scrub the back of each hand, don't forget your fingertips and nails!
- 4 Rinse hands thoroughly under clean running water.
- 5 Dry hands completely using a clean, single use paper towel.

Our Specialty Products are designed to treat specific needs. Like opening that stubborn clogged drain, to treating grease traps, to cleaning, brightening and polishing metals, stainless steel, brass, copper and other soft metals – Prime Source® has your needs!

CHEMICALS

[illegible]

This image shows a full page of blank, lined paper. It features approximately 28 horizontal blue or grey lines spaced evenly apart, typical of notebook paper. The lines extend across the entire width of the page, leaving small margins at the top and bottom. There are no vertical lines, text, or other markings on the page.
